Dear parents/carers,

10th September 2026

At the end of Year 4, the children will take part in the **Statutory Year 4 Multiplication Tables Check**. This is a short assessment designed to check how confidently children can recall their multiplication facts. During the check, children will be asked **25 times tables questions**, covering multiplication facts from **2 to 12 times tables**. The questions are completed against the clock, so developing quick and accurate recall is an important part of preparing for the check.

Times tables are an important life skill and provide a vital foundation for many areas of mathematics. We would therefore like to work closely with you to support the children in becoming confident and fluent with their multiplication facts. To help with this, we are sending home a **Times Tables Pack** for each child. Each week, your child will receive new **flashcards and times tables activities** to add to their pack and keep safely at home. These resources can be used regularly for short practice sessions.

The children can also use **Times Tables Rock Stars (TTRS)** to practise their multiplication facts in an engaging and interactive way. They will also have the opportunity to take part in the **Year 4 vs Year 5 Battle competition**, which we hope will make practising their times tables fun and motivating!

Each Friday, we will have a short times tables check based on the **tables we have focused on that week**. We kindly ask that you support your child by spending a little time each week practising their times tables. **Regular, short practice sessions are much more effective than trying to learn everything at once.**

We will also be holding a **parent meeting in the near future**, where we will provide further information about the Multiplication Tables Check, explain what to expect and share additional ways you can support your child at home. Further details about this meeting will be sent out shortly.

Thank you, as always, for your continued support.

Kind regards,
The Year 4 Team
