

1st job - reread what you wrote yesterday

Have you used?

- extra information
- fronted adverbials
- some ; others
- de : de
- conjunctions

If not get them in!

Then write your next paragraph focusing on either Sparta or Athen's strong points

After that, write your last paragraph summing up the main points of each argument, but then ultimately deciding which you think is best and why. Maybe give the main reason you think is most important

For example - Athens is the most important civilization as they created democracy - something we still use today.

Finally, check all your work.
