

# Gakonga – African Art

Gakonga is a talented African artist who's greatest gift is inspiring others to capture and enjoy the magic and colours of his homeland Kenya.

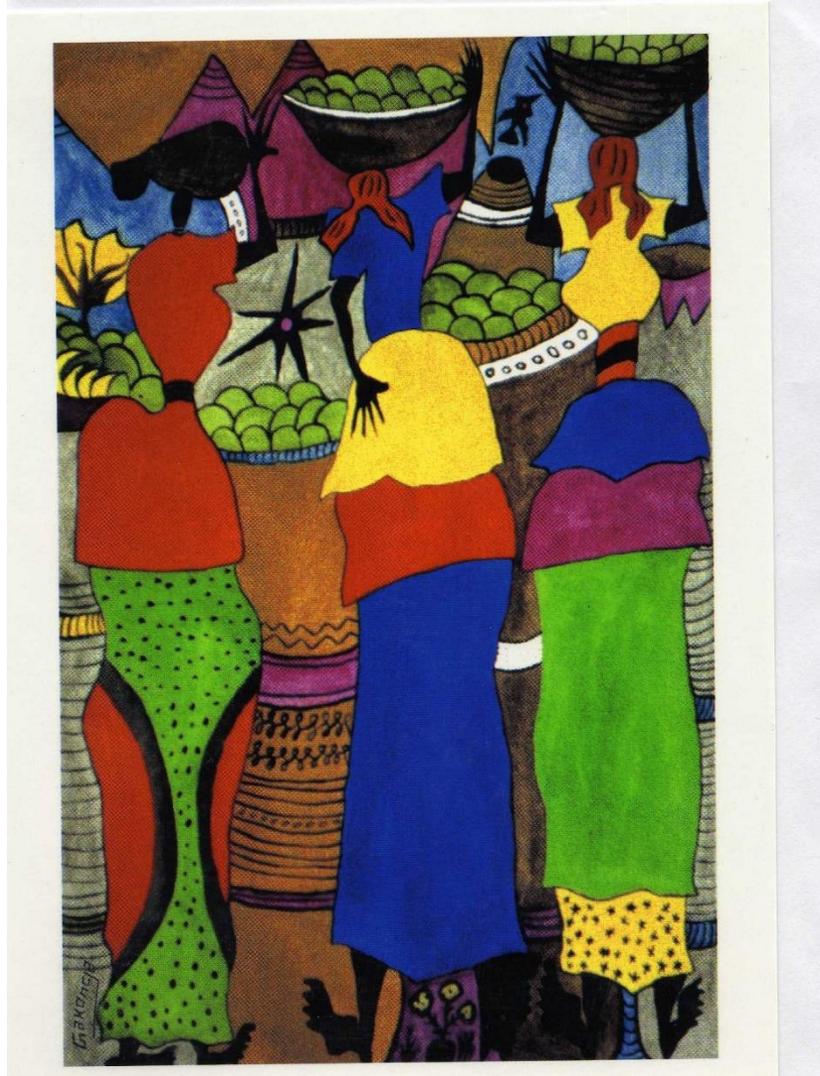

Through my life journey as a visual artist and an artist in education I have achieved many things from having tea with the Queen to designing a vibrant African book cover for Penguin books (The Penguin Book of Modern African Poetry - by Gerald Moore). I have exhibited my artworks in many places and my greatest joy is painting, every piece of my work is alive with my warm happy spirit..•

How does Gakonga use colour?

How does Gakonga use colour?

Your task is to use bright colours to try and create your own version of the 3 African men.

If you do not have access to colours, focus on drawing the shapes and outlines in pencil. You could try experimenting with shading.
