

Monday 11th January
Anglo Saxon Invasion! Let's Invade Britain!

Introduction: Who are you and what do you stand for?

Fellow warriors, settlers and noble citizens. We are the Angles and therefore we are fighters. As a result of our recent droughts, we can't go on like this! Do you really want to lose your homes? We could be facing one of the deadliest periods of recent times.

What are the points you are going to mention?

1. We must find new, fresh and fertile land.
2. We have been asked to help.
3. We can gain more power, wealth and expand our influence.

Point 1: Point, Explain, Evidence (PEE)

Over the last few painful years, which have been more damaging than the last, our land has faced more and more destructive floods. As a result, we are facing of the worst droughts in our history (worse than in AD405). Therefore, we have no other option but to begin our audacious search for fresh, drier land.

See slides – 'model plan' for further help if needed.

Point 2: Point, Explain, Evidence (PEE)

Point 3 or Address Counter-Argument: Point, Explain, Evidence (PEE)

*On the other hand,
Some might say,
Although others might think that...*

Conclusion: As well as linking to your introduction, summarise the most important points and say why they are important.

Surely, you must be in no doubt that we have to act now! You know that I'm right.
