

# The Year of the Ox

Chinese New Year is often called the most important of the traditional Chinese holidays. Each year of the Chinese calendar is based on the Moon's phases rather than the movement of the Sun. As a result, Chinese New Year falls on a different date each year.

## The History of the Chinese Horoscope

According to Chinese culture, each year is represented by one of 12 animals. This tradition is thousands of years old and is said to have begun with a story. Given its age, many versions of the story exist. One version has the Jade Emperor as the main character and another has Buddha but all versions of the story are very similar and all name the same 12 animals. One version of the story tells that Buddha called out to all of the animals on Earth and asked them to come and see him one day yet only 12 animals answered Buddha's call. To thank them for their loyalty, Buddha gave each one of these animals their own year in the Chinese zodiac cycle.

The Year of the Ox begins on 12<sup>th</sup> February 2021. # The Year of the Ox

Chinese New Year is one of the most significant dates in the Chinese calendar. Each Chinese New Year – a lunar year in which the months are calculated based on the Moon's phases – begins on a slightly different date compared to the last and each is represented by one of 12 animals.

## The Origin of the Chinese Horoscope

The history of the Chinese New Year is steeped in legend and dates back thousands of years. It is believed to have originated from a story but, given its age and regular retelling, many different versions of the story exist. One myth holds the main character as Buddha while another states that it was the Jade Emperor – a representation of the first god within Chinese culture. It is difficult to determine which version was the original tale but both stories bear strong similarities and involve the same 12 animals. In one version of the story, Buddha called out to all of the animals on Earth and requested that they come and see him yet only 12 animals answered Buddha's call. To repay them for their loyalty, Buddha gave each one of these animals their own year in the Chinese zodiac cycle.

One such animal was the dependable ox. It is said that the ox, in fact, arrived first but the rat - who was kindly helped by the ox - tricked the ox and rushed ahead of them. Consequently, the ox was the second animal to arrive and, thus, became the second animal of the Chinese zodiac.

The Year of the Ox commences on 12<sup>th</sup> February 2021 and will be the 4719<sup>th</sup> year of the Chinese calendar, lasting until 1<sup>st</sup> February 2022 when the Year of the Tiger begins. Once this happens, 11 years will pass until the next Year of the Ox, which will only begin again in 2033.
