$$45 \div 5$$

A large grid for working out the division problem. At the bottom center of the grid is a rectangular box for the answer.

$$1,007 + 3$$

A large grid for working out the addition problem. At the bottom center of the grid is a rectangular box for the answer.

What fraction of this shape is shaded?

Circle the letter below that has parallel lines

**Z A E X Y**

What number is halfway between 10 and 24?

Name: \_\_\_\_\_

$$\frac{28}{5} = 5 \frac{\square}{5}$$

$$44 \times 19 = 4 \times \square$$

Marcus has five coins.

Three of the coins add to £70p

Three of the coins add up to £2.20

All five coins add up to £3.70

What are the coins that Marcus has?

Zara has some identical rectangles.

She makes this shape using three of the rectangles

What is the perimeter of Zara's shape?

$$600 - 20$$

A grid for showing the calculation of 600 minus 20. A rectangular box is provided at the bottom right of the grid for the final answer.

$$15 \times 3$$

A grid for showing the calculation of 15 multiplied by 3. A rectangular box is provided at the bottom right of the grid for the final answer.

Add together the number of days in **March** and **May**

A teacher asked the children in a primary school if they had visited Wales or Scotland.

How many more children have been to Scotland than Wales?

Jack thinks there are 280 children at the primary school.

Why might Jack be wrong?

23rd June

10% of 70

Grid for calculation of 10% of 70. An empty rectangular box is provided for the answer.

$260.3 - 118.49$

Grid for calculation of  $260.3 - 118.49$ . An empty rectangular box is provided for the answer.

Here is a net of a cube.

Draw one more cross so that the cube will have crosses on opposite faces

Here is Jessica's timetable on a Wednesday

9:00	9:50	10:00	11:05	12:10	1:05	2:20
am				pm		
maths	break	science	English	lunch	PE	

How long does the science lesson last?

Jessica leaves school early to go to the doctor. She leaves 20 minutes before the end of her English lesson.

What time did Jessica leave?

$47 + 58$

$3 \overline{) 48}$

There are 100 toffees in a bag.  
 3 children each take 12 toffees.  
 How many toffees are left in the bag?

Name this shape

**Menu**

- Burger**     **90p**
- Egg**        **70p**
- Chips**      **80p**
- Mash**      **65p**
- Drink**     **55p**

Amelia buys a portion of chips, an burger  
 and a drink.  
 How much does that cost?

**24th June**

$5.6 + 1.7$

$45 \times 6$

Circle the hexagon with exactly four acute angles

River	Length (km)
Des Moines	845
Gila	960
Mississippi	3,544
Snake	1,674

Arrange the rivers in order, starting with the shortest.

How much longer is the Mississippi than the combined lengths of the other three rivers?

HINT: An acute angle is less than  $90^\circ$ .
