

Dear Children,

DATE 03.02.21

We are sharing your learning challenges with you to do at home. We expect that you will complete maths, reading and writing work each day just like you would in school. We would like you to complete the work as best you can, remembering that we expect 'beautiful work'.

We will send you your learning the evening before so that your parents can plan the day with you. Please upload your work via **Class Dojo by 2pm**, so we can see how you're getting on and provide you with feedback. After this time, we would like you to complete a further challenge linked to our topic.

If you cannot access the learning online, please get your parents to tell your teacher as soon as possible, so that we can find a solution.

	Maths	Reading	Writing	Computing
Wednesday	<p>Work through the power point 'Convert pounds to pence'. There is also a video of the power point that you can follow at https://vimeo.com/498297373</p> <p>If you have any issues accessing this video, please get in touch via Class Dojo.</p> <p>The PowerPoint begins with a Part Part Whole model and asks you to find the missing Part by exchanging the £5 and the 50p for £1's and 10p's. and then taking away the amount in the other Part.</p>	<p>Read the text "Pet Care of a Guinea Pig." (Reading Activity 3.2.21)</p> <p>Once you have read and understood it, answer the questions based on what you have read. Think really carefully about the questions and remember our work in Guided Reading in school:</p> <p>~Look for any key words in the questions</p> <p>~Read the text again and underline the key words from the questions.</p> <p>This should help you find the answers.</p> <p>Remember to write in full sentences.</p> <p>Daily Reading (15 minutes)</p>	<p>Today we will look at the Build Up of our story. The build up begins to introduce the problem. It is a small series of events that shows something is going wrong.</p> <p>In our story this could be that when Phra Mahapranom Dhammalangaro first arrived at the temple he saw that it was full of garbage and that the plastics were either burned or thrown away. People would just throw plastic in the river and forget about it.</p> <p>We need to continue to make our paragraph interesting for the reader, so today I would like you to include some Inverted Commas in your writing.</p> <p>What are inverted commas?</p>	<p>Work through the PowerPoint (Computing – Lesson 2: Sources and Who to Trust)</p> <p>This lesson is all about understanding who you can trust, both face-to-face and organisations and people in the media.</p> <p>The PowerPoint provides opportunities for thinking and discussion as well as the following tasks:</p> <p>Task 1: (Slide 4) – Choose between 6 and 10 of the organisations/people on the slide and put them in order of who you trust the most and who you trust the least. Share your thoughts.</p>

	<p>It then shows you how to subtract the pounds first and then the pence. However, this method may not always be appropriate as sometimes you may need to exchange. The PowerPoint then moves on to show you how to count down and up using a number line to find your answer before finally explaining how to use a bar model.</p> <p>Once you have worked through the PowerPoint, complete the worksheet provided.</p>		<p>That's correct, Inverted commas are another name for speech marks. The PowerPoint continues to explain how to use Inverted Commas and asks you to complete two sentences using them correctly.</p> <p><u>Task</u> Today your main task is to write the next section of our story – the Build Up. Use your planning on your story mountain to help you. You must include Inverted Commas at least once in your Build Up. As always, remember to include correct CL and P where appropriate.</p>	<p>Task 2: Trust Bingo game (Slide 6) Follow the instructions on Slides 6 - 8 and use the Computing Activity sheets (Lesson 2 Exercise 1) to play the game.</p>
Daily challenge / Did you know?	Can you create and play your own game using only recycled materials?
