**Enquiry Question:** How do we care for people?

Subject Specific Vocabulary			Sticky Knowledge
Care	To look after and provide for the needs of people.	For the following half term, our PSHCE topic will be around our caring and responsibilities. We will get to know our own strengths and weaknesses, set goals for the future and develop our understanding of online safety.	Care needs change as we progress through life. As a result, there are a wide range of people and organisations that can provide care support.
Responsibility	The state or fact of having a duty to deal with something or of having control over someone.		
Community	A particular area or place considered together with its inhabitants.		Care can take several forms: can you think of more than one example of what care might look like?
Vulnerable	To be in need of special care, support, or protection because of age, disability, or risk of abuse or neglect.		
Isolated	Having minimal contact or little in common with others.		Although you might not know it, some people can feel lonely and become more isolated as they grow older.
Loneliness	The feeling of sadness because a person has no friends or company.		Charity work and volunteering are excellent ways of supporting your local and wider community – this way, we can raise money for those in need.
Involvement	The fact or condition of being involved with or participating in something		
Volunteer	A person who works for an organisation without being paid.		
Charity	An organisation set up to provide help and raise money for those in need
