Week/Focus	Day	Learning Intention
<p>Week 1</p> <p>Focus: Fiction (narrative)</p>	<p>Hold a sentence (for each day of week)</p>	<p>The heat on the <u>island</u> was <u>extreme</u>.</p>
	<p>1</p>	<p>To know how to orally rehearse writing <u>Oral Rehearsal: Share relevant section of the story, teacher to provide brief story map showing relevant section of story. Use story map/visual prompts to learn and orally retell relevant section of story. Discuss writer choices.</u></p>
	<p>2</p>	<p>To know how to orally rehearse writing <u>Oral Rehearsal: With the guidance of a pre-prepared story map, re-write relevant section of story/WAGOLL. Discuss writer choices.</u></p> <p>TWR strategy: Following the re-writing of the orally rehearsed text, the teacher will model and the children will practise converting fragments to sentences (based on the orally rehearsed text/the slow writing lesson that will follow). Discuss what a sentence is/what is needed to make a sentence (subject-verb/subject-verb-object).</p> <p>A fragment is a group of words that is not a grammatically complete sentence. Usually a fragment lacks a subject, verb, or both, or is a dependent clause that is not attached to an independent clause.</p> <p>Ideas:</p> 

	 <p>1. alia's house <u>Alia's house was filled with books from the library.</u></p> <p>2. were more valuable than gold <u>The books in the library were more valuable than gold.</u></p> <p>3. saved more than 30,000 books from destruction <u>Alia and her friends saved more than 30,000 books from destruction.</u></p>

(<i>this lesson may also include role play to gather speech</i>)</p>

Year 3 Writing MTP

		 <p>Thought Tracking With this strategy, you can consider characters at various points of your text and then pause to voice or explore their thoughts. You could consider: <i>What are they thinking at this point of the story?</i> <i>What would they be thinking after this event?</i> and so on. An interactive way to do this is to have a child freeze frame a character's reaction to part of the story and then have other children take turns to stand behind the child and voice their thoughts. They keep going until they exhaust all ideas.</p> <p>You could also try Passing Thoughts where children pass by a character and speak their thoughts about the character.</p>

**** Drama ideas to fuel narrative writing (to be used as art of slow written lessons)**

- Conscience alley of a character
- Hot seating a character
- Role play to re-create a scene

Drama Activities for Story Writing

Mime

This activity allows children to engage with the text individually and mime particular aspects of it. Children take a certain action of a character or a certain part of a scene and think carefully about what they are miming and how they will mime it, in order to recreate the action.

Freeze frames

A quick and easy drama technique where children recreate scenes, actions or consequences in a story. They freeze in position (no moving about), creating a still image of what they are trying to portray. You could sequence freeze frames to represent the flow of a story or significant events that unfold. Freeze frames can be made by individuals, small groups or the whole class.

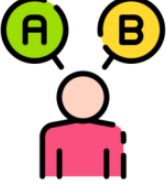

Thought Tracking

With this strategy, you can consider characters at various points of your text and then pause to voice or explore their thoughts. You could consider: *What are they thinking at this point of the story? What would they be thinking after this event?* and so on. An interactive way to do this is to have a child freeze frame a character's reaction to part of the story and then have other children take turns to stand behind the child and voice their thoughts. They keep going until they exhaust all ideas.

You could also try **Passing Thoughts** where children pass by a character and speak their thoughts about the character.

	<p>Teacher in Role</p> <p>Here, the teacher enters the drama as a character in the text or a possible character that could arrive in the story. They interact with the children in the role and can enhance the drama, support the children's ideas and extend thinking.</p>
	<p>Hot seating into Role on the Wall</p> <p>Hot seating is where a character or characters from a text can be interviewed by the class. The character can be played by the teacher or by the children. Before interviewing, it's good to discuss what the class want to ask the character and help them to reframe questions if necessary, so they are clear and workable. It is also good to model asking and answering questions beforehand.</p> <p>Once you have gained a better insight into your character, you can summarise what you now know and what you think you know about them, using Role on the Wall. Here, you draw an outline of the character onto a large piece of paper. Around the outside of the character, you can write words and phrases to show what you have actually found out and know about the character. Inside, you can write</p>
	<p>ideas about what you think you know (what you have inferred) about the character. You can also use it to collect words to describe the character's appearance on the outside and then list their thoughts and feelings on the inside.</p>
	<p>Back-to-back mobile phone</p> <p>In pairs, the children sit back-to-back and enact a scenario where they are on the phone to each other. They can be talking about and discussing what they have seen or what the character has experienced or gossiping about the character and what they have been doing.</p>
	<p>Flashback and Flashforward</p> <p>These techniques allow children to focus on the consequences of events in a story. We can get them to consider what has happened before, or what might happen later, as a result of an action or decision. For example, we could consider what would happen if the woodcutter had let the wolf go in <i>Little Red Riding Hood</i>. Flashforward a week and what could be the consequences of the wolf still being around? Let's flashback to the moment where Skellig decided to hide in Michael's garage. What had happened leading up to this? You can use freeze frames to create flashbacks or flashforwards from the perspective of different characters in the story also.</p>

	<p>Eye witness report</p> <p>An eye witness can watch a scene without other characters being aware of them. They can report back afterwards on what they have witnessed and they can also answer questions put to them by the other children, in or out of role. This could also be played out as part of a TV news report where children report on an event that has occurred, incorporating eye witness statements or interviews.</p>
	<p>Talking Objects</p> <p>This is where objects within a story can speak in role. They can talk about what they have seen or experienced. They can talk to each other, they can talk to themselves and also, they can be questioned by the children directly or by the children as other characters in role. What would the trees say in <i>The Gruffalo</i>? What would the objects on the shelf in the opening pictures of <i>The Arrival</i> (by Shaun Tan) say about the situation that's unfolding? Objects can also talk directly to characters in a scene and even talk about them between themselves. They can also be interviewed as eyewitnesses to whatever unfolded in the story. For example, the objects in granny's bedroom could report back on how the wolf was defeated by the woodcutter in <i>Little Red Riding Hood</i>.</p>
	<p>Talking Scene</p> <p>A great way to explore the setting of a story or the make-up of a scene. Children sit around a large circle or rectangle. They can recreate a setting from a story by building it up bit by bit. In turn, they step into the circle and voice who they are and give details. They can choose how they present themselves and on what level. Some may stand tall; others crouch or sit. They can describe themselves in any way but should start by saying what they are. For example, in a forest scene you might say <i>"I am the mighty oak tree that grows on the edge of the forest. My leaves unfurl when the sun shines."</i> The children can be features of a landscape or objects within a setting. <i>"I am the cauldron that the Big Bad Wolf fell into. The pigs hung</i></p>

	<p>Wait until you get home ...</p> <p>This is simply where we improvise what happens when a main character gets home after a particular event in a story. Who's there? What did their parents/other family members say or do? Were they punished or rewarded? The possibilities are endless!</p>
	<p>Conscience alley</p> <p>Here we can explore the inner thoughts and decisions a character may have to make or investigate the dilemma they are facing. The class stand in two lines facing each other. One child takes on the role as the main character and when they walk down the 'alley' between the lines, the other children voice the character's thoughts, both for and against a particular decision or action that the character is facing. This gives the impression of the character's conscience, mulling over the pros and cons. The child in role listens to their conscience before making a final decision about the dilemma in hand.</p>
	<p>Whoosh!</p> <p>This activity is a combination of drama and storytelling. The class sits in a large circle as the teacher tells a story. As the story unfolds, the teacher signals to individuals, pairs or groups of children at different points, to get up, enter the circle and represent that part of the story. This can include becoming objects and scenery as well as characters. When the circle becomes overcrowded, the teacher can shout "Whoosh! Whoosh! Whoosh!" which is the signal for everyone to clear the acting space and go back to the circle. The story can continue and further children can be called to enact the scenes. This is very similar to the 'Helicopter Stories' ideas used with young children.</p>
