

## British Values

# Democracy

by Kenzie

### **What is democracy?**

Democracy is a way of voting and making decisions for example in the past election, voting for the Prime Minister. Democracy first came to England in 1215 when the Magna Carta was created and signed. It is important to have democracy so everyone gets their say.

### **How do we use this British Value in school?**

In school we use democracy to decide many things like school council and most recently we voted on playground leaders. It's important for democracy in our school so we can stay fair and have our say!
