## Tapestry 2020-2021

At Zouch Academy we use 'Tapestry' to record and document your child's learning journey. Teachers make regular observations and assessments of your child using and applying the skills and knowledge that they have been taught in adult led sessions during their independent learning. We use Development Matters to record their stage of development and to track progress.

### How it works

The email address you have provided on your application form will be attached by the school office to your child's learning journey. We can add more than one email address so that ALL parents can be involved. A great way to keep updated with your child's learning if you are deployed or if parents are separated. Please talk to your child's class teacher if you would like to add more emails to your Tapestry account.

You will then receive an activation email from Tapestry which may be delivered to you junk email. Please follow the instructions in activate your account.

As we all know learning doesn't just take place in school and Tapestry allows parents to upload photos and videos of your children's Wow moments that happen out of school. Please visit <https://tapestry.info/parents-carers.html> for more information about downloading the app and adding your observations from home.

**All photographs/videos taken and uploaded to Tapestry by the school are the property of Zouch Academy and you do not have permission to upload them onto any website or social media platform. Any incidents where this confidentiality is broken will be dealt with very seriously. Our Privacy Policy regarding information sharing can be viewed at <https://thewhitehorsefederation.org.uk/gdpr>**

If you have any questions, need any additional information or need to amend your email address then please contact the school directly.
