

The value of **COURAGE**

Ian thinks that courage is when you are brave or confident to answer questions in class even if you are a little worried it could be wrong, as we learn from mistakes so it is good to have courage.

At Zouch we use courage in lots of ways and we are encouraged to be brave and have a go at things we might find tricky, like our Maths calculations.

Courage is inside you, you just have to find it and let it out!
