

The value of RESPONSIBILITY

Bulou thinks that responsibility is taking care of society, each other, the world and the things we own. This could also mean being responsible as a great role model in and outside of school and completing a leader's role such as School Councillor or Eco Monitor.

Torrie-Ann uses responsibility at Zouch by taking care of equipment, doing as her teacher asks her and by being mature and completing her homework.

Chenni thinks that responsibility is a value every child at Zouch has.
